

Next-generation access control

Beckon Access Control

Your smartphone as the digital key — cloud-based access control for modern businesses.

www.beckonaccess.com

ACCESS REIMAGINED

Beckon – smarter app-based access

BEFORE

- Physical keys & cards
- Local network infrastructure
- Manual management
- No remote access
- High installation effort

VS

WITH BECKON

- Smartphone as the digital key
- Built-in cloud connectivity
- Fully automated onboarding
- Remote access & management
- Preconfigured, ready out of the box

CORE FEATURE

The smartphone is the new **digital key**

Bluetooth Low Energy (BLE)

Energy-efficient, reliable connection — works even without Wi-Fi.

iOS & Android

Compatible with every modern smartphone. No extra device required.

Real-time access

Access is processed instantly — no delay, no waiting.

No key. No fob. No problem.

Everything users need is already in their pocket.

TECHNOLOGY

Fully integrated cloud platform

Independent connectivity

Beckon devices have built-in internet connectivity as IoT devices — fully independent of local network infrastructure.

Fail-safe architecture

Beckon is built fail-safe from the ground up. Automatic safeguards engage when connectivity drops.

Management API

External systems can be fully integrated via API — for maximum automation.

Management portal

Web-based dashboard for managing all users, permissions, and devices — from anywhere.

USER MANAGEMENT

Permissions **fully under control**

Individual permissions

Manage and configure individual permissions per user — restricted by time, door, or on-site-only access.

Automated onboarding

Integrate sign-ups into your website and activate new users with one click — onboarding runs fully automatically.

Remote access & management

Users can receive and use permissions remotely — no physical contact required.

GROWTH

Beckon **scales** with your business

Scalable user count

Any number of doors & gates

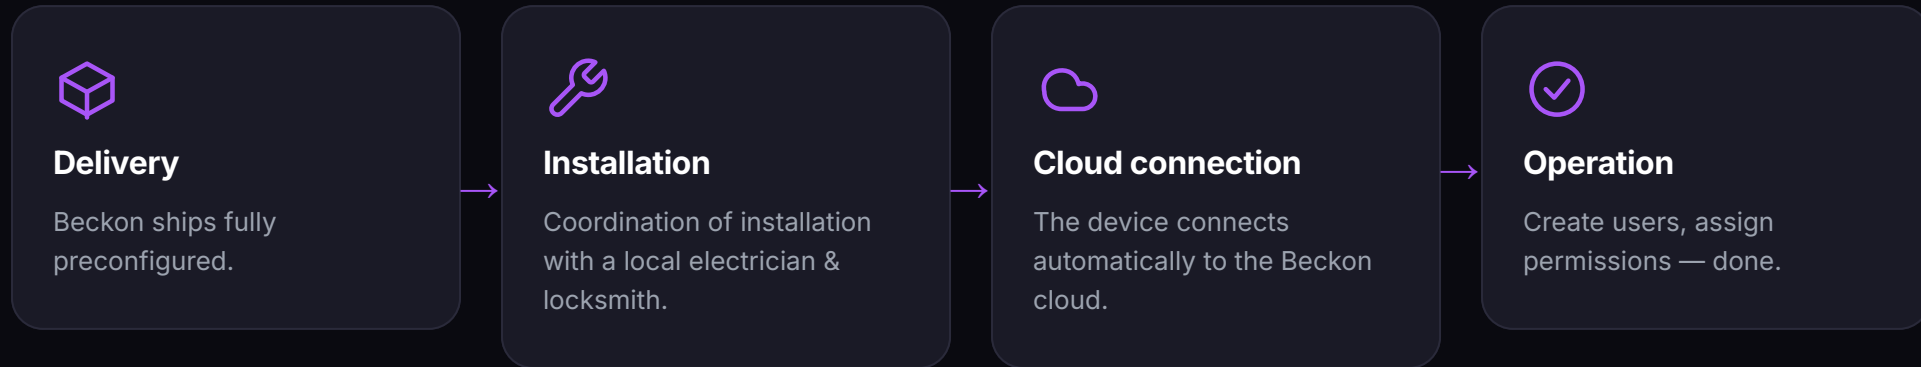

Local servers needed

Add new users anytime, integrate more Beckon devices —
without switching systems.

INSTALLATION & SETUP

Preconfigured. Ready immediately.

USE CASES

Suitable for **any industry**

Gyms

Members check in via app
— 24/7 with no staff
required.

Golf clubs

Access to grounds,
storage rooms, and
clubhouse — all digital.

Offices & Co-Working

Flexible access
management for
employees and guests.

Real estate

Smart access for tenants,
caretakers, and visitors.

Transparent pricing for long-term partnerships

Hardware

Preconfigured Beckon device with built-in connectivity.

\$1,550 one-time

+ \$20 per month (LTE)

+ \$10 per month (WIFI)
